

October 9, 2020

Dear Michael Napoleone Foundation,

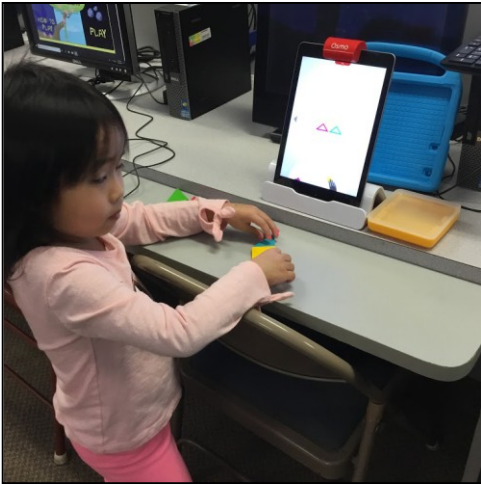

I would like to take this opportunity to thank you again for your continued support of St. Joseph Regional School. With the help of donors like you, we are currently providing a Catholic education to 172 students from 15 local school districts.

With the grant that we received during the 2019-2020 school year, we were able to purchase the below items for our Maker Space:

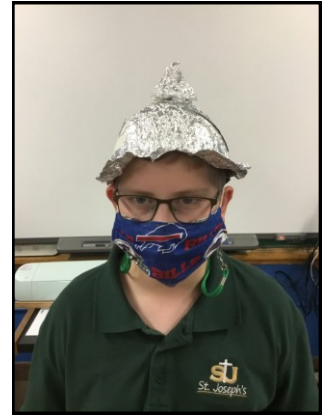

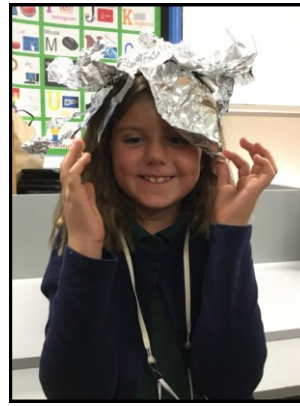

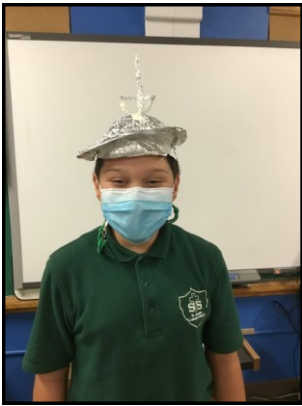

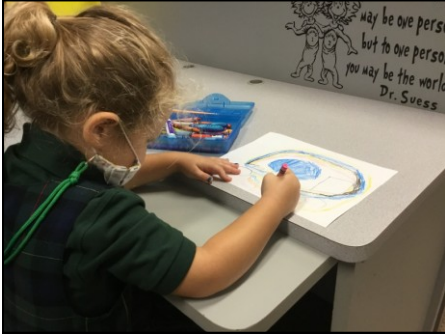

- Osmo Genius Starter Kits
- Coding Jams
- Pizza Co. Games
- A True Scale House Framing Kit

Students Using Osmo Kits with iPads

During our summer break, we were able to convert our technology lab into a Maker Space and this has allowed our students to have access to this space on a weekly basis. It has been exciting to see their creative minds at work!

On behalf of everyone at SJRS, we thank you!

Sincerely,

Karen Green
Principal
